

By Sheila Spencer:

One of the most treasured parts of my seminary journey are those who travel alongside and support me. The Regional Nurture and Certification Team have been an integral part of my journey from the beginning. These sisters and brothers have prayed with me, encouraged and stretched me. They have reminded me of giving myself the gift of grace while balancing school, full time work, family, travel and everything else that goes along with living this life. I am grateful for the safe space they provide and the support that is poured into me. This is one of the many tangible and important ministries offered through the Region. This is a gift.
