

**By: Holly Black**

The Young Adult Retreat is a biannual weekend event that brings us together in fellowship, study, and worship with old and new friends from across the region. Often, as young adults, it can be hard to feel as though we have a place within our own church. The retreats offer a community who understands this struggle to belong in a faith community. We offer each other guidance and explore the ways in which we can act in the ministries of the church. We are grateful strengthened faith journeys and for the connections made across the Christian Church in Indiana.
